EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael I. Stewart (Registration Number 24, 973) on September 2, 2005.

The application has been amended as follows:

Please substitute the following claim for claim 29.

29. (Currently amended) A method of immunizing a host, which comprises:

administering to the host an attenuated <u>auxotrophic</u> bacteria harbouring a vector comprising a nucleic acid molecule encoding at least one immunoprotection-inducing Chlamydia protein or a fragment thereof which generates a Chlamydia protein specific immune response and a promoter operatively coupled to said nucleic acid nucleic acid molecule for expression of said Chlamydia protein or fragment thereof by cells of the host but not by said attenuated <u>auxotrophic</u> bacteria.

2. The following is an examiner's statement of reasons for allowance: The instantly claimed invention defines over the prior art of record and is enabled through the working examples provided in the instant Specification, wherein the administered composition induced at least IgG2 and IgG1 immune responses to the vector encoded Chlamydia protein, wherein the vector

Art Unit: 1645

was harboured by the attenuated auxotrophic bacteria, and expression of the Chlamydia protein was by the host cells and not by the attenuated auxotrophic bacteria. The host cell expressed Chlamydia protein induced a Chlamydia specific immune response.

3. A **new title** that is clearly indicative of the invention to which the claims are directed is being set forth below.

-----ONE STEP IMMUNIZATION PROCEDURE FOR INDUCING A CHLAMYDIA SPECIFIC IMMUNE RESPONSE------

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ginny Portner whose telephone number is (571) 272-0862. The examiner can normally be reached on M-F, alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith can be reached on (571) 272-0864. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
